8.	Volume II: AFS	

MAYOR'S FOREWORD

Let me take this opportunity to account to Mantsopa community and other stakeholders on the work done during 2014/15 financial year through this comprehensive Annual Report. This 2014/15 Annual Report will amongst others, provide a clear indication on how we performed with regard to the 5 set of Key Performance Areas of the “Back to Basics” programme of the National Executive, as led by President Jacob Zuma. These set of Key Performance Areas are as follows;

- 1. Good Governance; 2. Public Participation- Putting people first; 3. Basic Services- Creating conditions for decent living; 4. Sound financial management; and 5. Building capable institutions and administrations.*

This annual report will confirm our unwavering commitment to provide basic services to our communities, create a conducive environment for economic development and tourism as well as delivering basic service to our communities.

During the year under review, we witnessed violent and destructive community protest in Manyatseng following the eviction of land invaders in Thusanong North, we are working closely with all stakeholders to address the community concerns.

We advise our communities to engage our Councillors, community structures and other spheres of government to resolve disputes other than destroying the very same property aimed at improving the lives of our people, our mandate as prescribed in 2011 ANC Local Government manifesto is to serve you with excellence.

Together, with the support of our residents and other stakeholders, we can do more.

I thank you.

SELLO DENNIS NTSEPE
MAYOR

DATE:.....

FOREWORD BY THE MUNICIPAL MANAGER

It is a great honour for me to support the Mayor and Council in presenting our 2014/15 Annual Report for the work done during the year under review. This report is an indication of the work done by our colleagues in implementing the 2014/15 Municipal Integrated Development Plan and other programmes of government. I'm confident that our management team led the staff with distinction in discharging our duties, paving and gravelling of roads, housing infrastructure, creating a conducive environment for trade and investment in our municipality, and implementing sound financial discipline amongst others in order to finance infrastructure development. We are certain that, with an excellent leadership of our Council we managed to meet most of our service delivery targets as prescribed by the IDP 204/15 and our performance agreements. Finally, let me also take this opportunity to thank the Mayor, Speaker, all Councillors, Senior Management and staff members for their support in serving our community with excellence.

Your contribution is always valued.

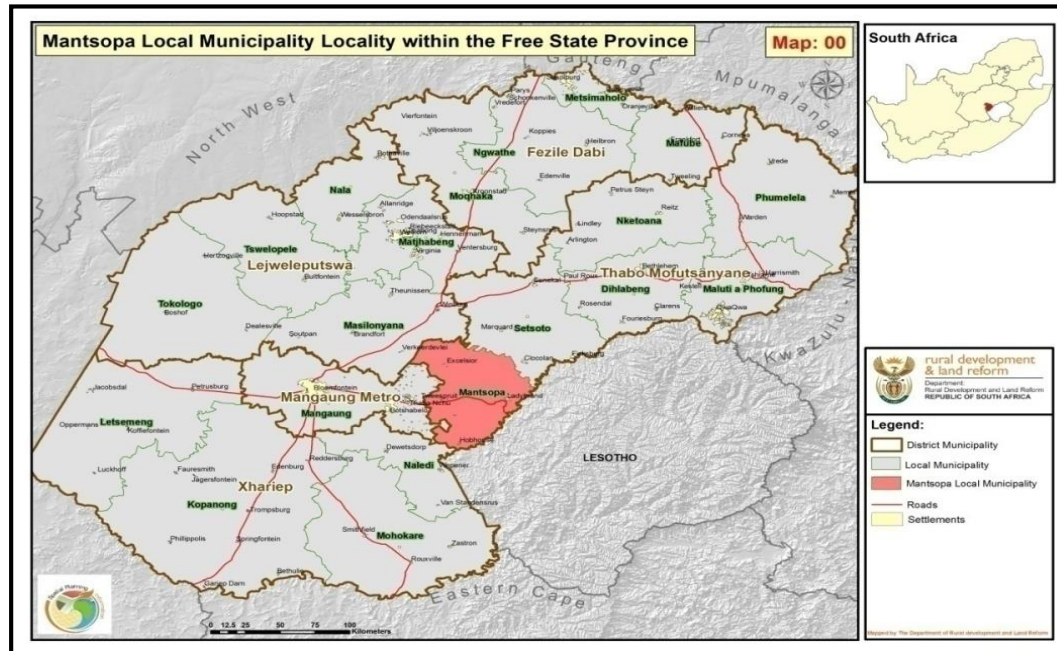

SELBY SELEPE
MUNICIPAL MANAGER

DATE:.....

Municipal Overview

Geographic and demographic profile

Mantsopa Local Municipality is a local municipality in the Thabo Mofutsanyana District of the Free State Province in South Africa.

The economy of Mantsopa is largely on the commercial farming sector, which employs many of the community. The private businesses and public sector also employs a number of the community. Tourism also plays an attraction point within the Maluti Mountains and the official pronouncement of Lekhalong La Mantsopa as a national heritage side. Mantsopa therefore is the gateway to the Mountain Kingdom of Lesotho which attracts lot of tourists nationally and internationally.

Figure 1: Languages spoken in the Municipality per ward.

Source: Statistics South Africa - Census Statistics 2011

The area is accessible via the N8 and R26 roads which transverse the area. A railway line that runs along these routes services the area. The municipal area accommodates approximately 51 056 people and covers an area of 4 290 km². It incorporates five small towns, which accommodates collectively 70.9% of the total population of Mantsopa. These small towns serve the surrounding rural community. The five main towns situated in Mantsopa are Ladybrand Head Office, Hob House, Tweespruit, Thaba-Phatchoa and Excelsior.

- **Ladybrand** is the most progressive of all towns and is the most eastern node in the municipal area. Ladybrand municipal area includes Manyatseng, Mauersnek and the surrounding municipal commonages that covered an area of 4 682 ha in size. The town accommodates 34% of the total population of Mantsopa.
- **Hobhouse** is a smaller rural town that is located southwest of Ladybrand and east of the Leeuw River along the Lesotho border. Hobhouse is the most southern node in the municipal area. It is about 2 089 ha in extent which includes Dipelaneng and municipal commonages. The town accommodates 4.6% of the total population of Mantsopa.
- **Tweespruit** is the most centrally located node along the N8 route between Bloemfontein and Ladybrand. It is about 1 534 ha in extent and included Borwa, Dawiesville and municipal commonages. The town accommodates 10.2% of the total population of Mantsopa.

- **Excelsior** is located 40 km north of Tweespruit along the R709 and forms the northern boundary of Mantsopa. It is about 1 298 ha in extent of which 243 ha was designed as an urban area, the rest were rented out to commercial farmers while some land was utilized for grazing purposes. It includes Mahlatswetsa and municipal commonages. Excelsior accommodates 10.6% of the total population of Mantsopa.
- **Thaba Patchoa** is located between Tweespruit and Hobhouse and is a small agricultural residence for about 1100 people. It is about 3 864 ha in extent and consisted of the farms Thaba Patchoa 105, Segogoana's Valley 665 and Sweet Home 667.

The municipal area has been divided into 8 wards. These wards comprise the following areas:

- **Ward 1:** Borwa, Thaba Patchoa and surrounding rural areas;
- **Ward 2:** Hobhouse, Dipelaneng, Portion of Ladybrand town and surrounding rural areas;
- **Ward 3:** Vukazenzele;Masakeng;Mekokong;Part of Los My Cherrie
- **Ward 4:** Part of Los My Cherrie, Flamingo; Part of Lusaka
- **Ward 5:** Mandela Park, Riverside, Masakeng, Thusanong, Modderpoort and surrounding rural areas;
- **Ward 6:** Lusaka, Thabong, New Platberg, and Homes 2000;
- **Ward 7:** Part of Ladybrand, Maursnek;Platberg and surrounding rural areas
- **Ward 8:** Excelsior, part of Mahlatswetsa, Tweespruit, Dawiesville, part of Motsekuoa and surrounding rural areas;
- **Ward 9:** Mahlatswetsa and surrounding rural areas.

Source: Statistics South Africa - Census 2011 Statistics

According to the database of the municipality 10627 households stay in the urban areas. The following table gives a breakdown of the number of households in the various towns as per record of the municipality:

Figure 2: *Number of households per year.*

Source: **Statistics South Africa - Census Statistics 2011**

Because limited information is available on the rural areas, the municipality undertook a rural survey in 2001 to get more information regarding the current level of service provision in the rural areas and the number of people residing on the farms. This survey indicated that an average of 2.8 households stay on those farms occupied by farmers and their workers. Where the farmer was not residing on the farm itself, 25% of all respondents indicated that an average of 2 families stayed on the farm. Only 35 farms, representing 11.4% of the respondents, had nobody that resided on the farm. A survey at the Deeds Office indicated that there are a total of 1874 farms registered in Mantsopa. If these figures are used to predict the number of households staying in the rural areas, the following is concluded:

Table 2: Estimated number of Rural Households

Survey Result	Applied to total number of farms	No of Households
73% or 223 farmers resided on the farm	$73\% \times 1874 \text{ farms} = 1368$	$1368 \times 2.8 = 3830$
35 farms had nobody residing on it (11%)	$11\% \times 1874 \text{ farms} = 206$	$206 \times 0 = 0$
48 farmers did not stay on the farm they worked (16%)	$16\% \times 1874 \text{ farms} = 300$	$300 \times 2.0 = 600$
Total	1874	4430

Source: Rural Survey (Mantsopa Local Municipality, 2001)

The rural survey conducted by the municipality also indicated that the average household size of the farm workers is 2.6 family members per household while the farmers has on average 2.1 family members. It is therefore estimated that 12 329 people are residing in the rural areas, using these average household sizes and multiplying it with the above estimated number of households.

This figure is less than the rural population estimates of 21 405 people, if a compounded growth rate of 1.7% per annum is applied to the census figure of 1996. However, it is known fact that many farmers have retrenched workers since 1996 and therefore the rural population should have decreased, thus concluding the findings made by the rural survey.

The following conclusion can therefore be drawn from the above, namely that:

The estimated population of the rural survey is correct and therefore the rural population has decreased while there was an influx of people, through both migration and immigration into the urban areas. It is therefore estimated that the total number of households have increased from 11 715 to 15 057.

Mantsopa Local Municipality has had some mixed outcomes in terms of Services Provision from 1996 to 2011 as showed in the table below. Access to piped water has had a serious decrease and needs to be addressed within this IDP.

MANTSOPA LOCAL MUNICIPALITY BASIC SERVICES COMPARISON (1996 - 2011)

Origin of the name

Mantsopa was a sister to King Moshoeshe I who banished her from the Kingdom when he suspected that her powers were greater than his. When she arrived at Modderpoort there were no houses and she stayed in a cave.

In 1886 a group of men called The Brotherhood of St Augustine arrived at Modderpoort, and Mantsopa accommodated them in her cave. The missionaries decided to stay and they turned the cave into a chapel. Mantsopa later joined the church and was baptized and given the name Anna. Mantsopa's grave continues to be visited and offerings are still placed on or near it.

Chapter 2: Governance

Vision

To Communally Create Better Livelihoods and Build a Community of Mantsopa Defined by a Common Dream by 2030

Mission statement

Transform Social and Economic Development Patterns through Integrated, Accessible, Equitable and Sustainable Service

Component A: Governance Structure

In line with Chapter 7 of the Constitution of the Republic of South Africa, Mantsopa Local Municipality's executive and legislative authority is vested in its Municipal Council. In carrying out its mandate, to govern on its own initiative, the municipality must ensure consistent compliance with applicable national and provincial legislations.

The Constitution of the Republic of South Africa specifically section 152 (ss. 1) enjoins and vest the following developmental mandates on municipalities. These are;

- To provide democratic and accountable government for the local communities.
- To ensure provision of services to communities in a sustainable manner.
- Promote social and economic development.
- To promote safe and healthy environment for local communities and,
- To encourage public and community participation in matters of local government.

Mantsopa Local Municipality has both political as well as administrative structures. The political structure consists of the entire municipal Council, the E Mayor, the Speaker and the EXCO. The administrative structure in turn is embodiment of all municipal employees, with the Municipal Manager serving as head of administration. The senior management consists of four section 56 managers appointed on fixed contractual agreement, who also serve as heads of departments in the municipality

Political Governance

- **Municipal Council**

The municipal council of Mantsopa Local Municipality is the highest decision making body in the area of jurisdiction of this municipality. The council consists of 17 councillors affiliated to different political parties. The mayor and the speaker also form part of this council and are both full time political office bearers.

- **EXCO**

The EXCO members are appointed by the council and serve as political heads for some of section 79 committees. Mantsopa Local Municipality has a Plenary Executive System, this means that the executive leadership of the municipality is vested with the council as a collective, and as a result, the executive authority the municipality is exercised through the council.

The Mantsopa Local Municipality's EXCO consisted of the following members as at the end of the period under review:

Cllr SD Ntsepe – Chairperson
Cllr Machakela
Cllr M Malakane

Section 79 Committees

The municipality had five section 79 committees during the period under review. These committees are responsible for implementation of specific committee related programmes.

The committees were constituted as follows for the period under review:

NO	COMMITTEES	MEMBERS	NUMBER OF MEETINGS HELD BETWEEN 1 JULY 2014 – 30 JUNE 2015	COMMENTS

Administrative Governance

In line with legislative prescripts, the head of the administrative structure at Mantsopa Local Municipality is the Municipal Manager. As the Accounting Officer, the Municipal Manager provides guidance on compliance with legislation to political structures; political office bearers, and officials of the municipality.

In execution of his duties, the Municipal Manager was assisted by his senior managers, who serve as departmental heads, The Municipal Manager, together with his senior managers, constitutes the senior management team of the municipality. The following individuals were part of the senior management team of Mantsopa Local Municipality for the period under review:

Mr. SM Selepe - Municipal Manager
Mr. KD Matsie – Chief Financial Officer
Me. PP Moloi - Director: Corporate Services,
Me. KB Sebolai- Director: Community Services,
Mr. NJ Raliapeng - Director: Technical Services,

a. Component B: Intergovernmental Relations

The constitution of the country requires all spheres of government to observe the fundamental principles of cooperation between spheres of government.

Concomitant to this background, Mantsopa Local Municipality see the intergovernmental relations between spheres of government as an important tool to enhance and speed up service delivery. In terms of Intergovernmental Relations Act Framework Act, 2005, the municipality has participated in provincial, district and intergovernmental technical structures such as:

- Premier's intergovernmental relations
- District's Intergovernmental Relations
- Intergovernmental Technical Support Structures

b. Component C: Public Accountability and Participation

Section 18 (i) (d) of Municipal Systems Act requires that a municipality must supply its community with information concerning municipal governance, management and development. The act further requires that a municipality must develop a system of municipal governance that compliments formal representative governance with a system of participatory governance.

During the period under review, public participation was of pivotal importance in decision-making processes of council. The municipality relied on public input and consultation to improve public participation, integrated development plans, budgetary planning and reporting.

Ward Committees:

Reports are submitted to Council by various committees through office of the Speaker. These reports are forwarded on monthly basis by wards collectively.

Individual ward committee members report to their committees during their ward committee management meetings. The ward will then consolidate a report that will be forwarded to the office of the Speaker, and at the ultimate stage the reporting will be forwarded to Council by the office of the Office of the Speaker.

Office of the Speaker is also checking through the reports/ minutes from wards; this exercise is done in order to with issues that need urgent discussions or attention to different departments within the municipality (e.g. Technical services or Community services). Normally these will be issues around service delivery.

Ward committee members are representing their different portfolios within their committees. The members are guided by the ward operational plans which set objectives and times frames towards various sector representations which members serve within their committees.

IDP Participation

In terms of the Municipal Systems Act, municipalities are required to prepare organizational performance management system that must be linked to the IDP. Tremendous progress has been made with the process of aligning the IDP, Budget and Performance Management System (PMS).

The PMS process will address the following issues:

- Alignment of the PMS, Budget and IDP processes;

The IDP, performance management systems (PMS) and budget are all components of one overall development planning and management system. The IDP sets out what the municipality aims to accomplish, how it will do this. The PMS enables the municipality to check to what extent it is achieving its aims.

The budget provides the resources that the municipality will use to achieve its aims. As indicated earlier, every attempt has been made in this process plan to align the IDP and PMS formulation and/or review, and the budget preparation process.

The linkages of the three was achieved through following the below process plan schedule for the financial year 2014/2015.

Composition of IDP and Budget Forum

The IDP and Budget Forum will facilitate and co-ordinate participation as part of the preparation phase of the IDP and will continue its functions throughout the annual IDP review processes. The proposed composition of the IDP and Budget Forum is potentially municipal stakeholders.

The terms of reference for the IDP Representative Forum are as follows:

1. Represent the interest of the municipality's constituency in the IDP process;
2. Form a structures link between the municipality and representatives of the public;
3. Provide an organizational mechanism for discussion, negotiation and decision making between the stakeholders including municipal government;
4. Ensure communication between all the stakeholder representatives including the municipal;
5. Monitor the performance of the planning and implementation process
6. Integrate and prioritize issues, strategies, projects and programmes and identify budget requirements; and
7. Monitor the performance of planning and implementation process.

Roles and Responsibilities of Different Spheres of Government in the IDP Process

The responsibility to prepare and adopt IDPs lies with Mantsopa Local Municipality. However IDP is seen as a key measure to identify and respond timeously and effectively to local developmental challenges and priorities, in a manner that leverages involvement and responses of all stakeholders including across sectoral basis and contributions by the district, provincial and national governments. It is therefore a requisite for all stakeholders to be fully aware of their own responsibilities and of other role-players' responsibilities so that the planning process is smooth and well-organized.

PREPARATION PHASE

ACTIVITY	WHERE & WHEN	RESPONSIBILITY	PARTIES INVOLVED
----------	--------------	----------------	------------------

Presentation of the draft IDP process Plan for 2014/2015 to the IDP Steering Committee	Wednesday 17 August 2014 10H00 Ladybrand Council Chambers	IDP Manager	Mayor, Speaker, Councillors, Management
Presentation of the IDP Process plan for 2014/2015 to the special Council meeting	Friday, 23 August 2014, 14H00 at the special council meeting, Hobhouse Council Chambers	IDP Manager	Municipal Manager
Presentation on Constitutional obligations, powers and functions	December 2014 in consultation with Department Corporative Governance and Traditional Affairs	Municipal Manager	Council, Management & Department

ANALYSIS PHASE

Component D: Corporate governance

Corporate governance is a system by which corporations are operated and controlled. This system encompasses a set of rules, processes and laws.

In the context of our municipality, we view corporate governance as an effective system of ensuring that the community get value for money through diligence and honesty.

In the course of rendering services to the community, it is therefore important to do so within the parameters of the law, and this can be achieved by connecting corporate governance with legislative risk management as a guideline.

Risk Management

The MFMA requires that the municipality has and maintains effective, efficient and transparent systems of financial and risk management and internal control; and of internal audit operating in accordance with any prescribed norms and standards.

During the period under review the municipality had a functional risk management unit, plans are put into place to strengthen the unit.

Risk management is the process whereby the Accounting Officer, and other key members of the senior management proactively, purposefully and regularly identify and define current as well as emerging business, financial and operational risks and either simultaneously or identify appropriate and cost effective methods of obviating and managing these risks within the Municipality.

The Accounting Officer ensured that the municipality has risk management structures that are aligned to the principles of good corporate governance, as supported by the Municipal Finance Management Act (MFMA), Act no.56 of 2003.

A risk assessment was done and the risk assessment register was developed and approved by the Audit Committee. The top 10 Risks were also identified on the Risk Assessment register and they are discussed on a weekly basis in the Clean Audit Steering Committee Meetings.

The Clean Audit Steering Committee is a committee formed within the municipality to ensure that the municipality moves away from getting negative reports from the Auditor General. It consists of Management and experts who advise on the best mitigating strategies for the municipality's high risks.

The municipality also developed a Risk Management Policy which is currently in operation. The municipality has recently appointed the chairperson of the Risk Management Committee and established a Risk Management Committee. The Committee is a subcommittee appointed by the Accounting officer to help him with his responsibilities for risk management.

Anti-Fraud and Corruption

For the period under review, the municipality adopted strategies to combat fraud and corruption in the IDP. The municipality's Internal Audit also plays a pivotal role in the review of processes and adherence to process relating to segregation of duties, procurement process, efficiency of internal controls, and other measures to prevent fraud and corruption from occurring.

The Municipality has developed the Fraud Prevention Policy and Fraud Prevention Strategy. These policies must be reviewed by the Risk Management Committee and the current objective is to present them in the next council meeting. The municipality is currently using the controls on the Risk Assessment Register to mitigate fraud.

Supply Chain Management

For the period under review, the municipality had an approved supply chain management policy which is in line with the MFMA and National treasury regulations. Furthermore; the policy was reviewed to be in line with the Preferential Procurement Policy Framework Regulations of 2011.

The Supply Chain Management unit is appropriately capacitated in terms of human resources and skills. The unit is headed by a senior official who assumes the duties of a Supply Chain Manager.

During the period under review, there were a number of instances where procurement procedures were not followed, which resulted in deviations from the approved policy.

The composition of the bid committees is in accordance with the provisions of the Supply Chain Management Regulations, 2005, and there is regular reporting on the implementation of the policy.

By-Laws

There were six (6) new by-laws introduced in this reporting period. To provide by-laws for Council to implement for better services and legal.

Standard Building Regulation, 2011

Standard Cemeteries and Crematoria, 2011

Standard Sporting Facilities, 2011

Standard Taxi Rank, 2011

Standard Unsightly and Neglected Building, 2011

Standard Waste Management, 2011

COMPARISON OF PERFORMANCES FROM PREVIOUS FINANCIAL YEARS AND MEASURES

BASIC SERVICE DELIVERY

2013/14	2014/15	Measures taken to improve Performance
	WATER AND SANITATION	
Refurbishment of 2 Dawiesville and 2 Golf course boreholes. These boreholes were primarily used supply water to Dawiesville, Borwa, and the Town. The Lovedale raw water dam was depleted.	Underground water investing was funded by DWS and has been completed. The Municipality can now make an informed decision of available water in order to augment water supply through boreholes. The report will benefit Tweespruit and Excelsior that normally experience raw water shortage during dry seasons.	Construction of a borehole in order to augment water supply
Appointment of WSSA for 10 key projects		
Purchasing of E.coli equipment for the purpose of identification	Construction of connector pipeline from the new Hospital to the low pressure reservoir started.	A person be appointed to do water quality testing for municipality
Purchasing of Jar testing equipment. The equipment will enable the municipality to improve on water quality as it is used for optimizing the plant.		
Appointment of Pula strategies to review and prepare a credible WSDP for the Municipality		Support from other Departments needs to improve
	100% Buckets eradicated at Dipelaneng and Borwa	Mahube training for water & waste water quality management in progress
	Almost 90% of reported incidents have been attended to	
	ELECTRICITY	
Electrification of 89 households in Platberg (Phase 2)	Electrification of 215 Households	
Retrofitting of streetlights	Installation of energy saving lights in municipal offices	
	ROADS	

	<u>Ladybrand</u> Church Str.: 200m (from Fifth to sixth str.) converted from tar to paving. Project implemented by TMDM. Construction Complete.	
	Fifth Str. (from Joubert to Botha Str.) project implemented internally, earthworks completed.	
	Fifth Str. (Nuwe to Princess Str.) Project is implemented by Thabo Mofutsanyane District and construction in progress (Earthworks)	
	Thabo Mofutsanyane District Municipality is also assisting Mantsopa on paving of Erasmus street and completion of 5 th street to John Williams).	
	SOLID WASTE	
	Effective implementation of Youth Jobs in Waste, Domestic Waste Collection	
	Construction of By-back Centre has commenced and 91 local people have been

Source: Directorate Finance

1.3. Equitable share

The rapid growth in local government's equitable share is largely due to increases in the allocations for indigent households. The growth in equitable shares is intended to assist in meeting the capital and operating costs of providing basic services to poor households.

The main purpose of the equitable share is to provide free basic services to poor households, but it also supports the specific project expenditures of the municipality.

CHAPTER 4: ORGANISATIONAL DEVELOPMENT PERFORMANCE

INTRODUCTION

While national government prioritises delivery of national imperatives and other policy objectives, the delivery of basic services to communities is the primary mandate of the local authority. Mantsopa Local Municipality believes that municipal human resources forms the bedrock upon which its operational foundation is built and the cornerstone upon which its present and future success is anchored. Human resources is the most valuable asset, when optimally utilized, motivated and developed. The municipality is aiming at fully optimise the potential of its workforce in order to enhance service delivery and to achieve the overall objectives as well as the organisational performance. Human resources is the primary investment source of the municipality through the human capital and endeavour to maintain its investment by sourcing relevant talent and developing it to capacitate the Municipality further.

TURNOVER RATE

<i>Details</i>	<i>Total appointments</i>	<i>Total terminations</i>	<i>Turnover rate</i>
2013/2014	43	18	0.06
2014/2015	6	16	0.05

VACANCIES AND TURNOVER

Council approved the organisational structure and identified the position that needs to be filled on 29 May 2015. During July 2014 positions were advertised and six (6) appointment were made for the financial year 2014/2015. All section 57 and 56 positions are filled. Turnover is as a result of natural attrition due to deaths and retirement.
