Paragraph 4.6 of Circular 51 of the MFMA states that:

“The MFMA and the Municipal Budget and Reporting Regulations seek to move Municipalities away from the traditional approach of appropriating/approving budgets by line item. The aim is to give the heads of municipal departments and programmes greater flexibility in managing their budgets. To further facilitate this, each municipality must put in place a council approved virements policy, which should provide clear guidance to managers of when they may shift funds between items, projects, programmes and votes.”

Paragraph 2.2 of circular 89 of the MFMA states that:

The transaction in mSCOA relates to six regulated segments, therefore all segments must be considered when making a virement. Virement can only take place within a function or sub-function and the same source of funding. The creation of new projects or savings across functions can only take place through an adjustment budget.

4. Objective of Policy

This policy shall give effect to the requirements and stipulations of the Municipal Finance Management Act and Municipal Budget and Reporting Framework in terms of the Approved budget.
